Noveris

Brand book.

Learn Together.
Grow Further.

A shared breakthrough.

Noveris is a peer-learning companion for university students. It gives study groups a place to work through ideas together, with AI guidance when they need it.

Production handoff 14

Peers lead. AI facilitates.

The brand should feel like a capable study partner: clear, encouraging, and grounded in the work students do.

POSITIONING

Make learning social

Study Circles help students explain ideas, compare approaches, and solve problems together.

Guide with questions

The AI guide asks a question or offers a hint before giving a full explanation.

Recognize proven progress

Course milestones reflect completed work. Reviewed checks determine when learners earn Graduate status.

VOICE IN PRACTICE

“What have you tried so far? Compare your approach with your study circle.”

Give students a next step they can act on. Use direct verbs and name the work they have completed.

Support Darija in Arabic script or Arabizi, French, and English. Make space for code-switching in peer and AI conversations.

The Noveris mark.

A continuous N stroke rises toward a star, with an orbit crossing the mark. The Figcraft wordmark is set in Sora Bold.

Noveris

LEARN TOGETHER. GROW FURTHER.

SYMBOL
App icon, avatar, favicon.

Noveris

WORDMARK
When the symbol is already present.

Noveris

LEARN TOGETHER. GROW FURTHER.

STACKED
Certificates, booths, print.

Noveris

ONE COLOR
Single-ink or dark applications.

Give the mark room.

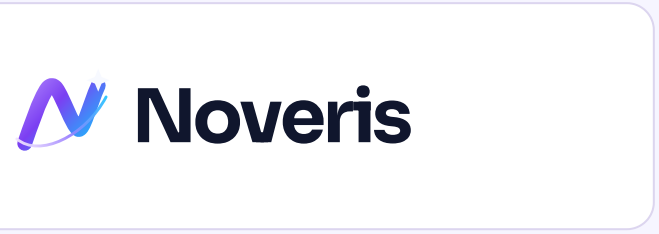

Keep at least half the symbol height clear on every side. Use a quiet field or a scrim when the background is busy.

MINIMUM SYMBOL SIZE

24 px digital / 12 mm print

BACKGROUND & INTEGRITY

Use a dark wordmark on light grounds.

- ✓ Keep the original proportions and orientation.
- ✓ Use the original gradient or the one-color component.
- ✓ Preserve the stroke weight and Sora wordmark.

Color with a purpose.

Night and Ink anchor the system. Violet carries identity and action, while cyan, amber, and pink give progress and stages distinct accents.

Course Resources
Keep notes, slides, and exercises together.

Feedback

On hover, raise brightness to 110% and increase the shadow. On press, move the button down 1 px. Use a 3 px cyan focus ring at 50% opacity.

Cards

Use a 16 px radius, a 1 px violet hairline at 26% opacity, and 32 px padding. Keep elevation violet-tinted.

Five stages. One companion.

Nardouch grows as students work through a course. Use the stage artwork and accent that match the learner's progress.

ARTWORK

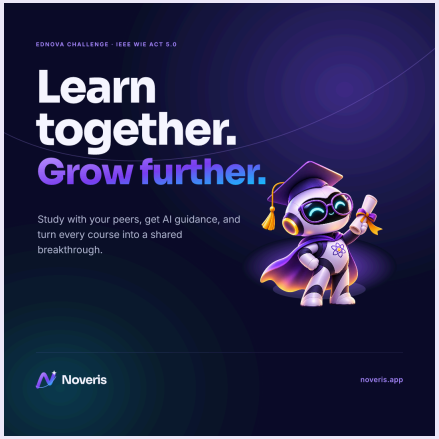

Keep the original transparent artwork, proportions, and stage tint.

GRADUATE / EARNED STATUS

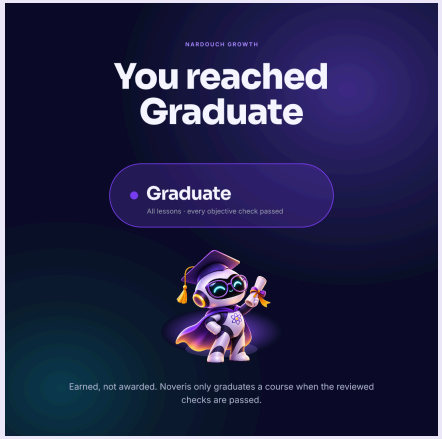

All lessons must be complete and every reviewed objective check must pass.

Made to travel.

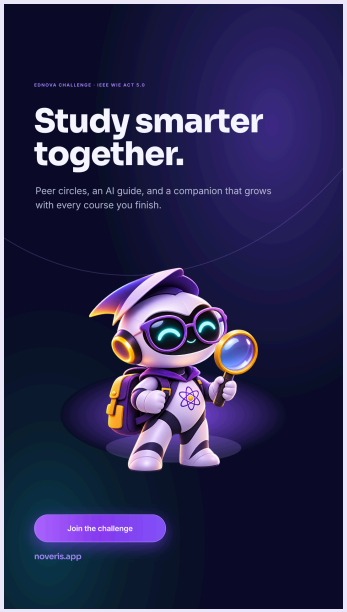

Choose the template that matches the channel. Adapt the copy and mascot stage while keeping the layout and type roles intact.

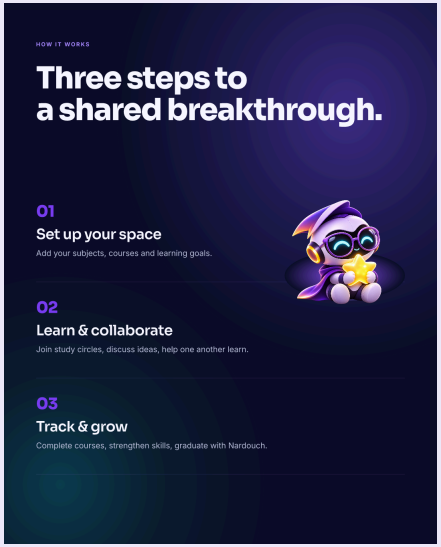

Square post 1080 × 1080 px

Milestone post 1080 × 1080 px

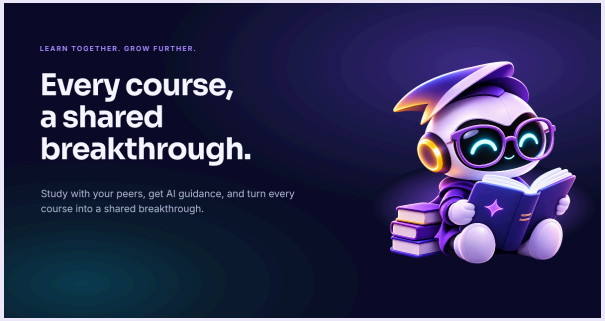

Story / Reel 1080 × 1920 px

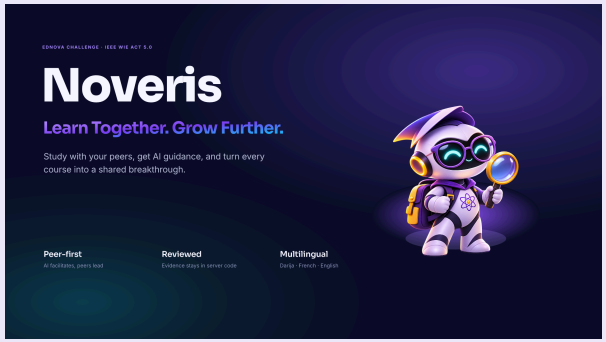

Wide post 1080 × 1350 px

From link to stage.

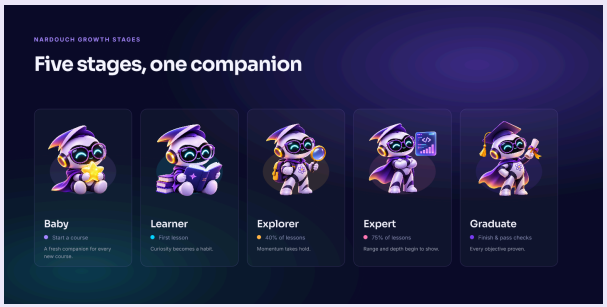

Use the link card for shared previews, the slide for presentations, and the badge set when explaining the full learning journey.

Link card / OG 1200 × 630 px

Slide 1920 × 1080 px

Stage badge set 1440 × 720 px

FIGCRAFT EXPORT

Duplicate the root frame, make your edits inside it, and export at 1× for the dimensions shown.

Start with the source.

The Figcraft file contains the master boards, reusable styles, and templates. Use the logo instances from Board 05 and component instances from Board 06.

BEFORE YOU EXPORT

01 Match the artboard to the output channel.

02 Check logo clearance and text legibility at final size.

03 Verify the mascot stage and milestone copy.

04 Export the complete root frame at 1×.
